

# EduXPRESS

**Web-based compliance solution that enables small and emerging EH&S companies to:**

- Deliver safety and compliance training online;
- Deliver audit readiness program;
- Manage training records;
- Expand the solution to include policies and procedures, Instructor-led training management, risk assessments, and more.

## Employ the Same Training Solution Found In Today's Top Companies

Emerging companies have the same compliance challenge as their larger counterparts. But, unlike larger organizations, emerging companies must develop and manage these programs using less staff (HR, IT, quality assurance control) and under tight budget constraints.

To help emerging companies achieve their compliance goals, we have developed EduXpress. The solution combines our authoritative courses with our award-winning training management system to help emerging companies meet their compliance and regulatory requirements and gain operational efficiencies.

## A Proven Approach to Online Compliance Programs

The nature of implementing compliance programs has proven to be complex, take extended periods of time and dedicated personnel to implement, train and administer these programs. Organizations of all sizes, including small to mid-sized, have turned to our cloud-based training management platform because of speed and efficiency

of implementation. Kaplan EduNeering has helped more than 400 companies strip the complexity from compliance learning programs within regulated industries, such as life science, health care, energy, manufacturing, and general industry. Our solution enables you to establish well-defined training plans based on job functions, reduce costs associated with face-to-face training, generate real-time audit reports and document all training activities to support long-term certification and employee development.

Our solution can incorporate any courses within our standard libraries; and positions your organization to improve performance through compliant learning.

## Capturing Regulations from Federal Agencies

Kaplan EduNeering's learning resources are developed through our relationships with FDA and nationally recognized subject matter experts that have domain expertise in critical regulatory agencies, such as OSHA, EPA, DOT, HHS and CMS. Our industry-focused authoritative curricula of over 600 courses target the diverse needs of learners, regardless of language, culture or education.

Our comprehensive compliance training solution integrates three critical components:

- Technology
  - Cloud-based Learning Management System, available in 30 languages
  - Unique risk assessment tools
  - Robust management suite for Critical Documents, Policies and Standard Operating Procedures (SOPs)
- Content
  - 700+ standard courses, specific to regulated industry
  - Blended learning programs
  - Custom course creation –over 5,000 created
- Professional Resources
  - Professional services organization
  - Customization and technology integration specialty
  - Industry leading partnerships and subject matter experts

**Subjects include:**

- **Life Science Organizations:** FDA-authored and/or reviewed courses identical to those used by FDA to train its inspectors and investigators;
- **Energy Operations:** More than 80 standardized courses on safety topics and other activities regulated by EPA, OSHA and DOT;
- **Environmental, Health and Safety:** Curricula focused on workplace subjects, such as employee confidentiality, sexual harassment, site security, and health and safety;
- **Ethics, HR and Risk Management:** Customized, company-specific courses, including Codes of Conduct, reinforcement of corporate culture, issues related to specific drugs or devices, and regulations from OIG and SEC;

- **Health care:** Curricula that enable health care organizations to comply with the requirements of HIPAA, CMS and HHS.

**Cloud-Based Compliance Training Solution that Enables Small and Emerging Companies to:**

- Automate online regulatory programs;
- Deliver audit readiness programs;
- Manage training records;
- Expand the solution to include controlled documents such as Standard Operating Procedures (SOPs), policies and procedures, Instructor-led training management, risk assessments, and more.

**Training Management Platform**

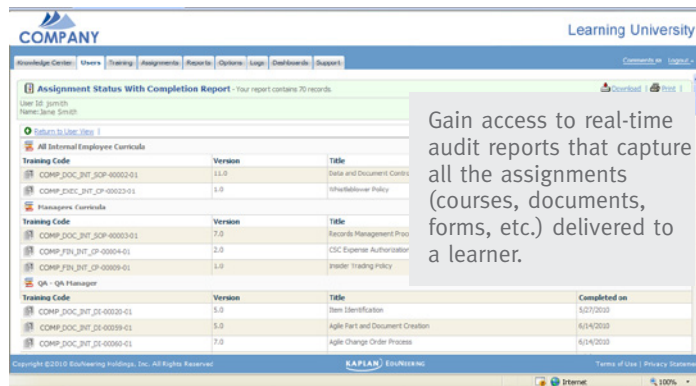

**Simplify Training Recordkeeping**

The Kaplan EduNeering Platform leverages a cloud-based computing model (also referred to as Software-as-a-Service or SaaS), eliminating the capital costs of new hardware and software, reducing the effort for Information Technology teams. The platform’s intuitive, easy-to-use functions and course structure promote learning. Learners have access to the courses from any Internet connection and at any time of the day or night. The 24/7 access enables them to learn at their own pace and on their own schedules.

EduXpress ensures that all training, testing and credentialing activities are organized and stored in audit-ready reports. Designated personnel can gain easy access to secure data for program monitoring, supervision and examination by inspectors. Each learner’s electronic signature, which is unimpeachable and secure, simplifies record-keeping and administrative tasks. There is a complete audit trail of all changes made to training items and user accounts.

**Expand the System to Include Policy Training, Quizzes and More**

The Kaplan EduNeering Platform was designed to be flexible and modular, so that clients only pay for the functionality they need. As your training needs grow, you can add powerful tools to build learning plans that organize and capture the various training that occurs within your organization, including policy and procedure distribution, face-to-face training, exams, assessments and off-site training workshops.
