

Student Placements Plan Ahead

Our Northern Universities embody world class strengths in research and teaching in the biomedical sciences, chemistry, physics, engineering, IT, mathematics & statistics and business.

Bionow can fast-track student placements with the appropriate skills and ambitions to suit your business:

- A year in industry placement is an affordable way to meet your resource plan from August 2019. Plan ahead now.
- A three month postgraduate placement can address a specific challenge with a fresh pair of eyes . . .
- An MBA student can tackle an essential business-related project.

Placements often lead to permanent job offers . . .
If your business is growing then ‘try before you buy’

Would your business benefit from a student placement?

It's easier than you think . . .

Type of placement	Host Application window	Placement Availability Window	Cost	Students	Type of work
Sandwich Year in Industry	Request sandwich placements via Bionow for the following year	12 months from August 2019	Industrial placements are on a full-time salaried basis.	Undergraduates, typically third years. A growing need in technical courses which often leads to permanent recruitment.	Placement is in a role directly relevant to the degree subject and the student maintains contact with their academic department throughout.
Professional Internships for Postgraduate Students	Request Postgraduate internships via Bionow	Available throughout the year 3 months in one block or split up.	As the project is part of the course there is no salary to be paid. However travel and/or accommodation will be payable.	Postgraduates working on a 4 year PhD programme. The 3 month internship is a mandatory part of the course.	Focus is on broadening perceptions and gaining work experience. Role can be related to the PhD but should not be a like for like laboratory role/ environment.
Business Projects	Request business placements via Bionow for the following year	April to August 2019	As the project is part of the course there is no salary to be paid. However travel and/or accommodation will be payable.	Postgraduates working on MBA/Masters program.	MBA/Masters student can undertake complex business projects with a strategic focus
